¶ A Negro integration leader was shot from a passing car in Montgomery, Ala. Four other integration leaders and seven "Freedom Riders" were arrested there. Attorney General Kennedy withdrew all but 100 of the 600 U. S. marshals rushed into the Alabama capital during mob violence last week end.

¶ First hearings will be held today for twenty-seven "Freedom Riders" jailed in Jackson, Miss. Gov. Barnett defended the arrests, said there would be more if other attempts are made to integrate interstate travel facilities.

¶ Lockheed Aircraft Corp. signed a formal agreement pledging racial equality in all its plants—including one in Marietta, Ga., which recently got a \$1 billion government contract to build jet transports.

¶ Attorney General Kennedy will make a special broadcast today to fifty countries via the Voice of America to discuss U. S. racial problems.

ARRESTED IN ALABAMA—Two of the leaders are among those entering a jail in Montgomery, Ala., yesterday. One of the leaders is Wesleyan University student.
